SYNOD IN SESSION

FIFTY DELEGATES IN ATTENDANCE AT GERMAN EVANGELICAL CHURCH.

OPENING SERVICE THIS MORNING

The Rev. H. Limper, of Blackburn, Conducted the Devotional Exercises—Will Not Wind Up Until Sunday Night.

The annual conference of Western Missouri of the Evangelical Synod for North America convened at the German Evangelical church on West Fourth street at 9 o'clock this morning, with more than fifty delegates answering the roll call.

The convention opened with devotional exercises by the Rev. H. Limper, of Blackburn, Mo., after which the Rev. N. Rieger, of Higginsville, Mo., read his annual report.

This was followed by the report of the vice-president, the Rev. C. Hoffmann, of Jefferson City, showing the amount of the various contributions to the different churches in the district.

This was followed by the reports of the Sunday school committee, committee on parochial schools, young people's societies and associations, and a detailed report of the committee on the regulation of a home for superannuated ministers at Blue Springs, Mo.

A general discussion of various topics ensued after the adoption of the reports, and at 12 o'clock the conference adjourned for noon recess.

The afternoon session opened with a secret meeting for ministers, followed by a report of the apportionment system as adopted by the Evangelical synod by the Rev. F. C. Klick, of St. Joseph, Mo.

The remainder of the afternoon session, which will adjourn at 5:30 o'clock, was devoted to the transaction of general business.

The conference closes with Sunday night's services.

NOT SEE MOTHER

MRS. FRANCES HYDE HAS NO DESIRE FOR A RECONCILIATION AT PRESENT.

SHE DOES NOT HESITATE TO SAY SO

"Treason to My Husband," Says Wife of Convicted Man, When Approached by a Reporter in Kansas City.

Kansas City, Mo., May 19.—Mrs. Frances Swope Hyde, whose husband, Dr. B. Clarke Hyde, stands convicted of murdering her aged uncle, Col. Thomas H. Swope, will never return to her mother's home until her husband can be welcomed there as an innocent man.

"What I told mother the night I left with Clark is true today," said Mrs. Hyde. "I will never enter that door again unless Clark can go with me and be received as an innocent man."

"My mother has been cruel and unjust in prosecuting Clark on a charge of which he is innocent. Until she comes to me and tells me she believes she was mistaken, and is sorry, I cannot enter her home. I can not hope she will do that, for I know she is sincere, though I cannot understand how she is."

Rev. George W. Hyde, of Lexington, father of the condemned man, said to a reporter yesterday:

"Why, Frances (Mrs. B. Clark Hyde) could prove him innocent if they would let her talk, but she had to be silent on that matter that would have cleared her husband. What a brave little woman she is."

"I don't think she will ever go back to her mother under any circumstances."

It is said that had Dr. Hyde been ordered to the penitentiary pending an appeal of his case Mrs. Hyde would have taken up her residence at Jefferson City, so as to be near her husband.

Farewell Meeting of Season.

FIGHT FOR FRISCO

"TEX" RICKARD AND GLEASON SURE OF GETTING PERMIT IN THE CITY.

NO CHANCE TO STOP THE BOUT

Big Open Air Arena May Be Built for This Event—Johnson In Better Condition Than Jeffries.

San Francisco, Cal., May 19.—The Johnson-Jeffries fight of July 4 will be held in San Francisco. The fighters and promoters have made up their minds to this fact, and the Emeryville race track idea has been abandoned.

Promoters Tex Rickard and Jack Gleason got busy last night working on the new location idea, and tickets sold for the Emeryville arena will be good in the Frisco arena and will be taken care of as originally planned. The promoters are somewhat worried about the talk going the rounds that the fight will not take place at all. They only think this will stop the sale of tickets in states outside of California, and are impressing on the minds of the public as much as possible the fact that there is not hardly a chance to stop the fight here. If it is not held in California, it will go to Nevada, and the promoters declare they will take care of every fight fan who has planned to go to the coast.

Tex Rickard stated positively last night that he has assurances enough that the fight will not be interfered with to go ahead and build the arena, and he is preparing now to build one if one of the Frisco arenas can not be secured or is not thought to be large enough.

Betting on the fight has not been brisk of late because of the talk of stopping it, but it is known that Jeffries' backers are demanding 8 to their 10 and the betting may go up to even money in a short time. The condition of Jeffries is still causing a little alarm, and the negro being in such fine shape is causing many to believe that he will win and they are backing their belief with real coin. Few Jeffries backers are anxious to bet anything this week.

No difficulty in securing permission to hold the fight here is anticipated for the promoters, but in order to comply with articles of agreement covering the battle it will be necessary for Rickard and Gleason to have the city officials make a special concession relative to the number of rounds.

Forty-five rounds or no fight, say the regulations in effect, and that is just twenty-five rounds more than is included in the purview of the local ordinance governing boxing exhibitions. It is thought, however, that no objection will be forthcoming from the authorities to the extension of this particular event beyond the usual limit. The permit is expected to be granted next Monday afternoon.

In view of the new turn the situation has taken, the filing by Louis Blot and Milton T. Clark, representatives of a local athletic club, of a petition for leave to build a big open air arena within the city limits is looked upon as significant.

PARTY FOR LITTLE GIRLS

It Was Given for Gertrude and Regina Bestgen.

It was a late hour when the guests departed, all expressing themselves as having passed a pleasant evening.

COMET TO BE SEEN

THE BIG SHOW IS CERTAIN TO BE PULLED OFF TOMORROW NIGHT.

TO APPEAR JUST AFTER SUNSET

Can Be Seen Right Over Spot Where the Sun Goes Down—Later It Will Look Like Rainbow That Was Cut in Two.

New York, May 19.—Prof. Harold Jacob, of Columbia university, did not remain near his telescope during the period of contact between the earth and the comet's tail last night. He was convinced that absolutely no phenomena worth observing would be noted.

"These comet parties that are being organized to sit out the comet's passage will have a lonesome job," he said in an interview given out.

"The next we shall see of the comet will be such a sight as will really set the people on edge who view it. Last night we were not able to see the comet because it set with the sun. The same will be true tonight. But there will be a great sight in the western sky on Friday night. That is the real night for comet parties.

"When the comet appears, just after sunset, it will be much more brilliant than it was last week in the morning sky.

"Look for it right over the spot where the sun goes down, and after the first night or two look for a shaft of light reaching up into the heavens until it seems like a rainbow cut in two."

"DICK" IS LAID TO REST

Faithful Mascot of Fire Boys at Engine House No. 2.

With impressive obsequies, the remains of "Dick," the faithful mascot of Company No. 2, of the Sedalia fire department, were interred at 3:30 o'clock yesterday afternoon in a lot in the rear of engine house No. 2.

Reposing on the grave of the canine today is a bouquet of flowers, placed there in remembrance of the dog, which met its sudden demise Tuesday while going to a fire on East Third street, being run over by a street car.

For six and one-half years "Dick" had been "custodian" of engine house No. 2. He went to every fire, day or night, running to the blaze, and riding in the hose wagon back to the department headquarters.

"Dick" was known from one end of town to the other, and universal gloom is cast over the members of the fire department as a result of his death.

Since the incident of yesterday it has been learned that many of them had several weeks ago burned much of their personal belongings, because the world was to end with the contact of the comet's tail.

The conference between strikers and officials of the plant is not yet ended. No violence is expected.

Town Marshal Kills Himself.

Muskogee, Okla., May 19.—Rather than face a charge of murder for having killed Elijah Coffinger, a prisoner who was shot while trying to escape, Levi Rogers, town marshal of Briggs, near here, committed suicide by shooting.

YOUNG GIRL SAVED

Oklahoma Religious Fanatics Planned Blood Atonement for Sins

—Posse Halts Knife Over Girl Martyr.

Aline, Okla., May 19.—Jane Warfield, a 16-year-old girl, was yesterday rescued from a band of religious fanatics twenty-five miles southwest of Aline when she was about to be offered up as a sacrifice to make a blood atonement that the sins of the world might be forgiven.

The sheriff of Dewey county had been informed that the band of religious enthusiasts known as the Select Followers had given out that their leader, Henry Heinman, had received a revelation from God that the world was to end yesterday and the heavens would be rolled up like a scroll following the contact of the tail of the comet; that the only thing that would avert the disaster was a blood sacrifice; that in order to save the world a sacrifice had been planned, and the lot had fallen to Jane Warfield.

Sheriff Hughes had kept trace of their movements closely and finally determined that he should be on the scene. With a posse of six men he reached the dell in the Glass mountains just as the sacrifice was being prepared, and only in time to rescue the young woman who was to be offered to save the world.

Sheriff Hughes had kept trace of their movements closely and finally determined that he should be on the scene. With a posse of six men he reached the dell in the Glass mountains just as the sacrifice was being prepared, and only in time to rescue the young woman who was to be offered to save the world.

The Select Followers believed that sin had passed from them and that they can handle serpents and drink poison without evil effect. For some time Heinman has been telling in his sermons that the world would end on the 18th day of May, and that the comet now in the sky would sweep with pestilential gases across the earth, eliminating all animal life.

The Warfield girl was clad in spotless white, with a wreath of white roses about her head. Her hands were bound and Heinman was standing in front of her with a long, keen hunting knife in his hand. Heinman and his leaders were arrested. About him were groups of his followers, about forty in all.

For some time Heinman has been telling in his sermons that the world would end on the 18th day of May, and that the comet now in the sky would sweep with pestilential gases across the earth, eliminating all animal life.

Heinman is a religious fanatic and the girl who was yesterday to be offered as a sacrifice is his stepdaughter. He, Tuesday evening, gave out that he had received a revelation that he was to sacrifice the girl, and thus avert the impending world calamity. Sheriff Hughes placed the girl in the

A THOUGHT FOR TODAY.

The willow which bends to the tempest often escapes better than the oak which resists it; and so in great calamities, it sometimes happens that light and frivolous spirits recover their elasticity and presence of mind sooner than those of a loftier character.—Sir Walter Scott.

THE NEW KING AND THE OLD.

Edward VII., of England, had a hold on the affections of his people such as few monarchs have possessed. This may be attributed in a large degree to his democratic manner and sympathetic, human character, in the exercise of which, however, he never forgot the dignity of his kingly station.

As Prince of Wales he gained the reputation of "sportiness," but when called upon to accept the grave responsibilities of a ruling monarch he put off the trivial, inconsequential things which had animated him somewhat during his early years. Edward's reign was brief, largely because he was a comparatively old man when called to the throne. History will not set down the reign of Edward as a brilliant or notable one, but it will concede that it was a worthy one.

The new king, George V., like his father, has been a great traveler, but is less fond of sport and gayety, more serious and more studious than his predecessor. He ascends the throne in the prime of life, at 45, and well equipped mentally, it would seem, to grapple with the important problems that will confront him, at the outset of his reign.

There can be no doubt that the present is a critical moment for the British government. Whether or not the struggle with the lords will stop there or involve the prerogatives of the crown itself is for the future to decide, and unquestionably the course of the new king will have much to do with the outcome.

The king of England has less real power than any other monarch or the president of the United States, but he possesses, nevertheless, a vast influence for good or evil.

England is one of the most democratic of governments, practically a republic in all but name. It depends largely upon King George himself whether or not in the near future it becomes a republic in name as well as in fact.

RICH IN YEARS.

Florence Nightingale, one of the most mighty women of the world, is 90 years old. For nearly fifteen years she has been compelled to keep within her London home, and she will probably never leave her

bed again. But though her body is weak her mind is still alert, and she is able to express her gratitude for the felicitous messages which come to her from all over the world.

Miss Nightingale, whom all the world knows as "The Angel of Mercy," will always be remembered as the greatest nurse in history. When the brilliant articles of the late Sir William Howard Russell, the great war correspondent, fired all England with indignation at the sufferings of the sick and wounded soldiers of the Crimea, in 1854, she wrote the historic note to Sidney Herbert, the minister of war, offering to organize and take out a band of trained nurses to the Crimea.

With thirty-eight nurses she reached Scutaria on Nov. 4, 1854, the day before Inkerman. There she faced the greatest problem that has ever confronted a nurse. The wounded were poured by ship loads into the great barracks hospital, until there were four miles of beds, not eighteen inches apart, filled with men as they came from the battlefield.

The commissariat had broken down and there was neither proper food nor changes of clothing, nor medical comforts, nor hospital necessities. How Miss Nightingale changed all this and extended her supervision to other hospitals of the east is matter of history.

She broke through red tape, defied the constituted authorities, and gained for herself an imperishable name in the annals of the army.

Last year King Edward bestowed on her the Order of Merit, which was the first case of a woman having been appointed a member of the order.

SHOULD OCCASION NO SURPRISE.

There should be no cause for surprise in the action of the United States senate in striking out the McCall campaign publicity bill, the requirement for a statement of contributions and expenditures before election. The senate's objection to this feature of the bill is but another evidence that the majority of the senate is not in accord with any movement looking to election reforms.

A good many of the grave and reverend senators gained their seats by methods that would not bear rigid scrutiny and they have no sympathy with the agitation for honest elections. They have a good idea of what would have been the effect in 1904 if the people had known that the insurance companies had contributed \$150,000 and the Standard Oil Co. \$100,000 to the republican campaign fund, and that Mr. Harriman raised \$160,000 after an interview at the White House with the president.

And they are not unmindful that there are congressional elections coming in November which will require heavy contributions from the "interests" to save the entire rout of the plutocratic host.

Republican leaders ought to be delighted to learn that a Harvard professor declares this is the year 1914 instead of 1910. Anything to get safely past 1912 is a Godsend to the g. o. p.

Norway presented Col. Roosevelt a peace prize medal, and, not to be outdone, he gave a Norwegian a certificate of membership in the Ananias club.

Theodore L. is it presumed, will give George V. some valuable tips on how to run an empire.

Investment-Savings

Practically all investments begin with saving.

You must have money to put to work so that it will earn more money.

It has repeatedly been said by successful men, who started in a small way, that the first thousand dollars was the hardest to save—after that it easier. The interest earned was a great help.

Have you started saving your first thousand dollars?

If not, do it at once. One dollar will start you. 3 percent compound interest will keep it growing.

FORMER WEBB CITY MAN GETS INTO TROUBLE OUT IN MORMON LAND.

HE FELL FROM GRACE IN DENVER

While a Catholic Priest He Eloped With and Married a Telephone Girl—Then He Came to Webb City, Mo.

Joplin, Mo., May 19.—Word has been received here that the Rev. John Ryan, deposed rector at St. Phillip's Episcopal church of Webb City, who disappeared following the flight of his young wife, is none other than Father Ambrose Ryan, the Denver Catholic priest who eloped with pretty Sadie Moran, a telephone girl.

He is now in jail in Ogden, Utah, on the charge of disturbing the peace.

Ryan was ousted from his rectorate in Webb City because of his former church record and the action of the Rev. Charles A. Weed has been confirmed by Bishop Brook of Oklahoma.

Ryan's 23-year-old wife left him at Monett, where he was holding services, about three weeks ago. He said she took with her \$300, leaving a note saying she was going to Kansas City and would never return. The former priest left for Kansas City the following day and not until last afternoon was word received concerning him.

Ryan came to this section of the state, having been sent by Bishop Brook. He is 5 feet, 8 or 9 inches tall, stout, dark, smooth shaven, weighs about 200 pounds, has large mouth, prominent cheek bones and an Irish accent in his speech.

Comes to Grief in Ogden, Utah.

Denver, Colo., May 19.—Ambrose Ryan, former assistant pastor of St. Leo's church in this city, is traversing a thorny path since his marriage in January to pretty Sadie Moran, a "holy girl."

Members of St. Leo's church were shocked last January to hear that the handsome young clergyman had defied the church and taken a bride. Secretly they had gone to Colorado Springs and were there wedded by a justice of the peace.

At first the marriage was denied, but later, lashed by the curse of the church, Ryan and his wife went to Oklahoma, thence to Missouri, where, becoming a minister of the Episcopal church without a charge, he was admitted to pulpits and received by society.

His charm and learning won the confidence of a congregation at Webb City and then the vestry communicated with the Denver Episcopal. Ryan withstood the criticism and sought refuge elsewhere. His bride slipped away from her daring husband and returned to her parents in Ogden.

Ryan continued his sermons in different cities and finally reached Helper, where he received word of his wife's whereabouts. He went to Ogden and demanded at his father-in-law's home that his wife return to him. Aged Mr. Moran rolled up his sleeves and held the priest to the floor until the arrival of the police. He is still in jail, charged with disturbance.

PUTS YOUR STOMACH IN FINE SHAPE IN ONE DAY

Just read how Mr. Cook got rid of the worst kind of indigestion:

"I had indigestion in its worst form and was advised to use Mi-o-na. I then weighed about 117 pounds. The first few doses gave me marked benefit and after using two boxes I was entirely cured. Am now 67 years old and weight 162 pounds, and am in perfect health, thanks to Mi-o-na."—C. C. Cook, 235 South Main street, Herkimer, N. Y.

Mi-o-na stomach tablets are guaranteed to cure indigestion or any sickness caused by indigestion, such as the following, or indore back:

Sick headache, biliousness, dizziness, nervousness, sour stomach, fermentation of food, belching of gas, heavy feeling at pit of stomach, sleepy feeling after meals, sea or car sickness, vomiting of pregnancy, sickness caused by over indulgence in the meantime.

During one of these periods of aberration, the police say, they caught Miller robbing a railroad ticket office and that at another time they caught him looting cash registers in a department store.

Miller declares he has no recollection of these acts, and the police are convinced he is not shamming.

A BIG GAMBLING LAYOUT

Went Down When the "Uncle Sam" Sank in Missouri River.

Kansas City, Mo., May 19.—When the steamer Uncle Sam collided with a sand barge in the Missouri river and sank yesterday afternoon at the foot of Grand avenue, the owners bade farewell to a craft that cost them \$20,000 or more four years ago. But that wasn't what saddened the crowd that gathered on the river shore and bent melancholy gazes upon the wreck.

As the vessel lurched sideways, gurgled and went down it carried with it gambling paraphernalia, wines, liquors and cigars worth all of \$5,000. Roulette wheels of delicate mechanism, crap tables and faro tables—all of the machinery necessary in separating the "sucker" from his money—were among the equipment of the Uncle Sam, and they are all soaking up dirty water at the bottom of the Missouri now. The games were on the lower deck.

The loss of the steamer was a sad blow to the "easy money" men. The Uncle Sam was Kansas City's one and only "gambling den," and there is no second best until some one provides another floating get-rich-quick enterprise. As for the liquors that were lost—well, there was enough to prevent the passengers choking with dust on the longest voyage the vessel ever made.

THE BLOW OF A BASEBALL

On a Man's Head Changed Model Citizen Into a Criminal.

Somersville, N. J., May 19.—That the blow of a baseball on the head can change a man of the highest moral rectitude into a daring and expert criminal is the view expressed by the police in explanation to the court of charges brought against William Miller, of Raritan, N. J.

The police state that before his baseball accident several weeks ago Miller was a model in the community. But after that accident, his friends say, he frequently had periods of apparent aberration, when he would become morose and disappear from their view for several hours. When he returned he seemed to be again happy and was unable to recall anything that had happened in the meantime.

During one of these periods of aberration, the police say, they caught Miller robbing a railroad ticket office and that at another time they caught him looting cash registers in a department store.

Miller declares he has no recollection of these acts, and the police are convinced he is not shamming.

'UNCLE JOE' ANGRY

SPEAKER OF THE HOUSE CLASSED THE INSURGENTS WITH JUDAS ISCARIOT.

MADE HOT SPEECH LAST NIGHT

Talked to the National Association of Manufacturers at Their Banquet at the Waldorf Hotel in New York.

New York, May 19.—What I would like to see would be our democratic populistic friends and their cowardly allies in full power in the house and senate, and then proceed to make war on the administration and those who made the Payne tariff law. I wish to God I might see them enter upon the work of giving the country a new revenue law and put it upon the statute books and that I might see them when they had that to defend. Then they would have a baby of their own to protect."

In this manner "Uncle Joe" Cannon fell upon his face last night in a speech which lasted an hour and a half before 300 members of the National Association of Manufacturers at their annual banquet at the Waldorf-Astoria.

It was but one expression of many in which he assailed those who have opposed him and his policy, and all throughout his speech there was present a defiance and contempt that was not concealed directed at those whom he has fought during the present session of congress.

At no time did he use the word "insurgent," but several times he mentioned the names Senators Cummins, Bristow, Dolliver, LaFollette and Clapp, coupling their names with that of Champ Clark, and although he did not grow specific enough to please some of those present, he fired a hot shot at an enemy easily identified when he said:

"There is one crying aloud in the wilderness in the west, who, had he been on the plains of Judea when Judas betrayed his Christ, if he could not have got the full price he would have entered into competition with Judas and would have taken fifteen pieces of silver."

CUT A PRIEST'S THROAT

Activity Against White Slave Traffic Made Him Enemies.

New York, May 19.—The Rev. Fr. Angelo Bellezza, priest of the parish of Our Lady of Carmel in Williamsburg, was lured from the altar, where he was celebrating mass yesterday, and was attacked by a man who cut his throat and slashed his face. The priest is dying at the home of his mother.

The police believe that the attack on Fr. Bellezza was the result of his agitation against resorts in his parish and his activity in aiding the police and the district attorney in breaking up the white slave traffic.

Protecting the Hair.—Short wisps of hair that fan the face look well only in poetry or a good love story. The owner realizes they are a great annoyance and often the perplexing problem of keeping them in place is never solved. If they are not permitted to grow, the accumulation of stray locks will increase rapidly, making more each month. The reason for the hair not growing and more coming each day is due, claims a hair dresser, to the very fact that the ends are burned off or rolled off with the curlers. Naturally, when curling the short hair, the ends are caught in the curler, held longest near the most intense heat and cannot escape injury. To protect the hair ends roll the hair around the curler, making the first roll close to the head, then wrap the length, leaving the ends uncured. In a few months, if the hair is so treated and not curled too often, the short wisps will show a pleasing increase in length. Pin back the short ends with invisible pins and do not curl them more than is absolutely necessary. If sewing or working and the hair falls over the face, as it has the disagreeable habit of doing, hold back the refractory locks with a wide ribbon tied at the top in a bow.

Something You Can Make.—Something convenient for the work basket can be made with a few cheap articles. One of my readers gave me one with a description for making same: Get an empty spool and fill the thread space with beeswax. It will be necessary to slightly heat it to fill the spool evenly and smoothly. Cover one end of the spool with a disc of red or green felt with tiny notches extending a few inches beyond the rim. It should be firmly glued in place. Fill the spool cavity with emery and attach three discs of felt, threaded together with baby ribbon, to the opposite end. This makes the beeswax handy for the thread, emery at hand for rusty needles, and the convenient little felt discs furnish a place for needles, all this in a tiny package. Nice for a present, and useful, too, isn't it?

When Traveling on a Sleeper.—A restless person will be kept awake more by the various noises than the motion of the train. If small pieces of cotton are placed in the ears the noise will be less noticeable and in almost all cases when this has been tried the travelers have been able to sleep peacefully through the night. It is a plan often adopted to keep restless babies asleep.

Letter to Mr. Peter Pehl, Sedalia, Mo.

Dear Sir: If you paint two houses alike with two different paints, and one takes twice as much paint as the other, you know which paint to buy after that—so far as go-far goes don't you?

One of the paints is Devoe; the other is any average paint. The worst are worse than that; the better are not much better; no other paint than Devoe is anywhere near Devoe in go-far. Devoe is go-farther; the rest are go-short, go-middling and go three-quarters.

Yours truly,

MILK DEALERS FINED

Confessed That They Adulterated the Milk They Sold.

Indianapolis, Ind., May 19.—Seven men who pleaded guilty to the charge of violating the pure food and drug act in regard to milk they had shipped out of the state entered pleas of guilty and were fined \$10 and costs each.

Judge Anderson gave them to understand, however, that the next offense would be dealt with far more severely. The offenders were Edward J. Koehlin, of Delaware; Mike Bean, Delaware; Fred E. Kaiser, Milan; Lewis Schutte, Delaware; Henry Bobrink, of Lawrenceburg; Henry A. Bobrink, of Lawrenceville, and Joseph Volz, of Piercerville.

Henry Bobrink said that he was now out of the milk business, and that his offense had consisted in taking a little too much cream out of the milk.

The judge asked if it was not a pretty mean business when farmers were getting such good prices for their products, but Bobrink contended that the price of feed was high.

ATTACK ON SORORITIES

In a Book That Was Written by an Expelled Member.

Los Angeles, Cal., May 19.—The work of her brain spurned by eastern publishers, Mrs. Isabel McReynolds Gray, whose expulsion from a sorority at the University of California in 1907 was a ten days' sensation, sent the manuscript of her book, "Florizel," to her English professors at the university, and has been notified that they have adopted the book for freshman English courses.

Mrs. Gray was surprised, and now is arranging for its private publication. The book, it is announced, was an attack on sororities and the life girls lead in colleges where sororities are allowed.

The real reason for the then Miss McReynolds' expulsion from her sorority never became public, the girls saying that they dared not speak for fear of a libel suit and Miss McReynolds saying she did not know.

THE SUICIDE CAME BACK

He Was Supposed to Have Hanged Himself Long Ago.

Topeka, Kas., May 19—David Grumbine left Topeka last November and visited the southwest. He returned to Topeka yesterday to be greeted as a ghost by wild-eyed friends.

He found that he had committed suicide November 4, 1909, had been in the potter's field and that a slab had been raised over his last resting place. A man was found hanging in North Topeka last winter.

There were no identification marks, but the description tallied with that of Grumbine and friends identified the body as that of the farm hand.

Miss Nettie Nichols, who has been off duty, owing to the death of her sister, Mrs. Theodore Fisher, resumed her work this morning in the office of County Recorder Walter Morey.

Miss Sadie Campbell left this morning for a visit with her brother, Dr. A. J. Campbell, at Sedalia, says Wednesday's Clinton Democrat. Dr. Campbell has been in Clinton for over a week with a sprained ankle. We are glad to learn that he was able to return to his practice yesterday morning.

John Jackson, of Crawford county, and sister, Miss Varina Jackson, of this city, who have been visiting their brother, Cliff L. Jackson, general attorney for the M. K. & T. in Oklahoma, at Muskogee, returned this morning. Mr. Jackson has visited at different points in Oklahoma for the past month, and it may be that he will make an investment in reality there.

Mrs. Andy Tyson returned to her home in Sedalia Wednesday, after a visit with Mrs. Adam Vernaz.... Robert L. Dancing and Children. Every mother dreads the "awkward age," especially for her girls. Its harm lies more in the fact of its moral effect than its physical, for a child who knows she is gawky and ungainly loses all self-confidence in both work and play.

Gymnastic exercises are the obvious remedy, but unless they unconsciously influence the child to perform better the everyday acts of sitting, standing and walking, they fail of their purpose. For what use are five minutes of chest expansion if the girl goes about the rest of the day with slumping shoulders?

More important than this is to make the exercises a pleasure—play instead of work. The child will then turn to them without urging and forget to be them. Music for even the simplest movements will give this pleasure, and "natural dancing" will combine sufficient exercise for every day part of the body, for a "natural dancer" sways the arms, head and trunk in addition to the foot work.

To really deserve the name, this kind of dancing should be spontaneous, with the spontaneity of the little street children who dance around the burdy-gurdy; but really all it amounts to is a rhythmic combination of the less strenuous of the gymnastic exercises.

If there is no school of dancing to send the daughters to, do exercises yourself with her. Twenty minutes a day will be a good frolic for you both. Compose the dances yourself, for there is an infinite number of combinations.

Plain skipping about as though waltzing or running very lightly on the tips of the toes will be sufficient for the feet while swaying with arms and trunk. The only rule is that the arms flow back gently in the direction from which you are running just as though you had left them behind. Backward bending, side bending, whirling, leaping and bowing are some of the motions that will occur to you.

A rotary swaying the head may be taken while kneeling on one knee. This allows for chest expansion and a strengthening of the waist muscles. The arms should generally be slightly curved in that palm-downward position that best conceals a bony elbow. The head should be held erect by seeming to stretch the muscles of the back of the neck rather than by lifting the chin.

Stage or "fancy" dancing will also do much at the awkward age.

Announcement was made at Little Rock, Ark., Wednesday that the sheet metal workers in the employ of the Missouri Pacific have just closed a contract with the railroad management giving the men an increase of 2½ cents an hour.

The contract also provides that the men shall work nine hours instead of ten as heretofore. The men demanded 3 cents increase and a compromise for 2½ cents was the result.

About twenty-five metal workers are employed in the Iron Mountain shops at Baring Cross. The increase will affect about 300 men employed by the system. Conditions at the shops among the striking machinists remain unchanged.

Saloon Thought No. 396

(More of Alabama by F. M. Jackson, of the Jefferson County Building and Loan Association, Birmingham, Ala.)

Merchants everywhere report the most prosperous year in their history and as a sample we quote one in Gadsden who says: "My business has DOUBLED IN VOLUME IN THE LAST EIGHTEEN MONTHS;" then he added this pathetic sidelight to his statement: "During that period I HAVE SOLD MORE CHILDREN'S SHOES THAN EVER BEFORE since I was a merchant."

Owners of steel plants, furnaces, rolling mills, nail mills and other industries say: "We believe in prohibition, BECAUSE we are now able to GET STEADY LABOR, and keep our plant running regularly."

Mobile bitterly opposed the prohibitory law, and the Mobile Register said: "If prohibition carries, the only port in Alabama will dry up and its famous bay become a swamp." In its issue of January 14th, 1910, it devotes columns to the record of the year's prosperity, and gives the figures to prove that THE GAIN IN EXPORTS AT THE PORT OF MOBILE IN 1909 was OVER \$1,000,000.

NO HOPE FOR ACTRESS

Specialists Do Not Believe Blindness Can Be Prevented.

Yonkers, N. Y., May 19.—No hope now is entertained of preventing Mrs. F. C. Horriett, who was Clara Morris, the actress, from becoming totally blind.

Dr. F. B. Belcher, the family physician, stated yesterday that every possible effort was being made to cure Mrs. Horriett of her ailment, but that her sight was failing so rapidly that it was difficult to see how eventual blindness could be prevented.

The general condition of the actress, aside from her eye trouble, was somewhat worse yesterday and fear was expressed by servants at the household that their mistress may not recover.

Doctors Markle, Lessard and Hartley, New York eye and ear specialists, were in conference yesterday on the case. Numerous visitors who had heard of Mrs. Horriett's affliction called to express sympathy, but were not permitted to see the patient.

Man Who Prepared President's Letter Makes Accusations.

Washington, D. C., May 19.—Assistant Attorney General Oscar Lawler, who prepared the memorandum which President Taft had before him when he wrote his letter exonerating Ballinger and dismissing Glavis, continued under cross-examination today. Attorney Brandeis asked Lawler if he was not prejudiced in favor of Ballinger when preparing his report.

"I had only the natural prejudice anyone would have in favor of an honest man against a dishonest one," replied Lawler. The witness was then asked if he did not have some reason to be prejudiced against Glavis, and replied:

"I had no prejudice. I knew he was absolutely untruthful."

"GRAFT" CASE ARREST

Schenectady Contractor Indicted on Charge of Grand Larceny.

Schenectady, N. Y., May 19.—The first arrest in the much talked of "graft" cases, for the trial of which Governor Hughes appointed an extraordinary term of the supreme court in this city, was made yesterday, when George F. Sauter, a member of the Sauter-Sanderson company, a firm of electrical contractors, was arrested on a charge of grand larceny in the first degree.

Five indictments were returned against Sauter by the grand jury which reported yesterday morning. Each of the indictments contains several counts, and the aggregate amount alleged to have been fraudulently collected from the county is \$699.18.

SIX NEW BISHOPS

APPOINTED TO FILL VACANCIES WERE CONSECRATED AT ST. PAUL.

ARCHBISHOP IRELAND PRESIDES

An Event of Great Moment in the Catholic Church, Overshadowed but Once, When Pope Consecrated Fourteen.

St. Paul, Minn., May 19.—With great solemnity and splendor, for which the Roman Catholic church is noted during important events, the six new bishops recently appointed by the pope to fill vacant dioceses in the province of St. Paul, of which Archbishop Ireland is metropolitan, were consecrated today.

The ceremony took place on the grounds and in the chapel of St. Paul's seminary, on High bluff at the western limits of St. Paul, overlooking the Mississippi river. The bishops consecrated were:

Rev. James O'Reilly, of Minneapolis, bishop of Fargo, N. D.

Rev. John J. Lawler, cathedral of St. Paul, auxiliary bishop of the diocese of St. Paul.

Rev. Patrick R. Heffron, rector of St. Paul's seminary, bishop of Winona, Minn.

Rev. Timothy Corbett, of Duluth, bishop of Crookston, Minn.

Rev. Vincent Wehrle, of the Benedictine order, and abbot of the monastery of Richardson, N. D., bishop of Bismarck, N. D.

Rev. Joseph F. Busch, head of the missionary band in the archdiocese of St. Paul, bishop of Lead, S. D.

Archbishop Ireland was the consecrator and was assisted by Bishop James McGolrick, of Duluth, and Rt. Rev. James Trobec, of St. Cloud, Minn. Rev. Frances Schaefer was master of ceremonies.

As an event of great moment in the Catholic church, it is said by ecclesiastics to have been overshadowed but once in modern times when the pope himself consecrated fourteen new French bishops, and in the United States the only ceremony which approximated it in significance was when Archbishop Ireland consecrated Bishops Shanley, McGolrick and Cotter at the same time.

Under the direction of Rev. Fr. Schaefer the procession of about 800 priests and 150 seminarians formed on the southern side of the spacious grounds, presented a striking appearance as it wended its way under the great oak trees to St. Mary's chapel, where the consecration ceremonies were held.

Following the priests came the bishops, then the bishops elect and last the archbishops, all in the robes of their office.

An immense gathering of the laity witnessed the procession, but owing to the fact that the chapel had seating capacity for only the priests, the public was not admitted to witness the consecration.

The consecration ceremony, which began at 10 a. m. and lasted about three hours, started with the reading of the apostolic commission, followed by the taking of the oath and the examination, the latter made almost in the same language prescribed by the council of Carthage.

During the examination the bishops-elect professed categorically their belief in the different matters of faith which have been particularly attacked by heretics, especially the doctrine of incarnation.

These preliminaries having been observed the solemn intoning of the mass was begun, the consecrator and bishops-elect simultaneously betokening their faith. During the ceremony the plain chant was intoned by the seminarians. At the conclusion of the ceremony proper the new bishops were invested with the crozier and ring necessary to the Episcopal order, accompanied with prayers and admonitions.

The mass then proceeded with the consecrator and new bishops celebrating it in unison at the same altar. Then came the partaking of communion, which was followed by the investiture of the mitre and gloves previously blessed by the consecrator with much pomp. While the te deum was intoned the new bishop was enthroned in the episcopal seat. Later he was led by the two assistant bishops around the church, blessing the congregation as he passed along.

The final act of the function was the bestowal of the kiss of peace by

TO BE DISCUSSED AT CONFERENCE OF CHARITIES AND CORRECTIONS.

MEET IN ST. LOUIS WHOLE WEEK

Among the Important Subjects to Be Handled Is "The Hookworm Disease" That Now Prevails in the South.

St. Louis, May 19.—One of the most representative assemblages of social and philanthropic workers ever held anywhere marked the opening today of the thirty-seventh annual session of the National Conference of Charities and Corrections.

Care and treatment of tuberculosis patients, the insane, the criminal, delinquent children and paupers will be discussed by authorities, and the deliberations will occupy seven days.

Many men and women who have become famous through their work are present, among whom are: Miss Jane Addams, of Hull House, Chicago; Judge Ben B. Lindsay, of Denver, Col.; William H. Lacy, of Washington, D. C.; Judge Willis Brown, Judge H. H. Baker, F. H. Nibcker, Ansley Wilcox, Alexander Johnson, Edward Boyle and others.

Affiliated associations meeting in connection with the conference are: National Conference on the Education of Dependent, Backward, Truant and Delinquent Children; National Federation of Remedial Loan associations; National Conference of Jewish Charities in the United States and the National Probation Officers' association.

The executive officers of the National Conference of Charities and Corrections are:

Miss Jane Addams, president; F. H. Nibcker, first vice president; Ansley Wilcox, second vice president; William H. De Lacy, third vice president; Edward Boyle, treasurer, and Alexander Johnson, general secretary.

The committee on law breakers will discuss "Adult Probation," "Public Intoxication" and the "Woman Delinquent."

The committee on children will discuss the need for a federal children's bureau. The loan shark evil will again be exploited by the committee on remedial loans.

The committee on the school and community will discuss "Industrial Efficiency," "Vocational Schools," "The School and the Wage-Earning Girl," "The School and Public Health and Morals," and the "School and Play."

The conservation movement, not only as it implies to the physical resources of the country, but also as it applies to the human resources, will be discussed.

Following closely in importance to the others is the committee on health and sanitation, of which Dr. Chas. P. Emerson, of Clifton Springs, N. Y., is chairman. This committee will deal with several new and vital topics.

Health and sanitation will be considered in their relation to social conditions and the bearing of their particular problems on charity and correction.

Among the topics announced are "The Hookworm Disease of the South," "Pellagra in the Middle West," and the "Rational Care of Consumptives."

Real hospital treatment in place of old form of asylum care for the insane has grown so rapidly throughout the United States, according to the officials of the conference, that it will be necessary for the section on state supervision and administration to devote almost its entire attention to the problems arising in the modern institutions.

According to Gifford S. Robinson, of Des Moines, chairman of this section of the conference, one of the most important contributions yet made to the literature on insanity will be offered by Frederick Peter-

son, of New York. Two years ago Dr. Peterson was planning an extended tour in oriental countries and was commissioned by the national conference of charities to make an extensive study of the care of the insane in China and Japan. His report will be presented to the conference this year.

THIRD TIME MAY CHARM

Wife Ought to Know Him Pretty Well By This Time.

Lamar, Mo., May 19.—Though both parties are under forty years of age, William Brummett and Mrs. Emma Ethel McDonald have formed the habit of marrying each other, and for the third time in six years have entered into a contract to "Love, honor, cherish and obey."

Their first wedding occurred six years ago, and their domestic felicity endured but a few months when Mrs. Brummett sued for a divorce, which she obtained.

She then married a Texan, from whom she was legally separated some months later. She then returned to her old home in Joplin, where she again met Brummett and they were re-married.

After a year of wedded experience, they were again divorced. This time Charles McDonald became the husband of the divorced woman of Alva, but with whom life proved incompatible and when her pray for a divorce from him was granted, she summoned Brummett and for the third time they took up life together.

A Silver Dollar For 90 Cents

and less. Will You Buy Some? If you had a partner in business who would furnish all the capital, do all the work, pay all the expenses, bear all the losses and then give you half of the profits, wouldn't you think you had the best partner on earth? That's exactly what happens when you buy your GROCERIES, FLOUR, FEED, ETC., from me.

If you, the buyer, the customer, the creator of profits, don't get back in cash a part of the profits you create every time you make a purchase, it is not my fault—for if you make that purchase of me and thereby make me a profit, I will be as good to you as you are to me, and you will get back at once in cash a part of that profit.

Of course, if you have money to burn or to give away and don't need to make your dollar go as far as possible, my proposition doesn't appeal to you; but if the reverse is true, it does.

Mine is a PROFIT-SHARING PLAN, STRICTLY—which means, when you put a dollar profit in my pocket by your patronage, a part of that \$ ought to be returned to you, and it shall and will be—not in tickets or merchandise, premiums, etc., but in CASH—not at some future time, but at the time the purchase is made, right then. Come and try it just once. This is the "show-me" state and the "show-me" age. I will "show you."

Washington, May 19.—"To preach the Gospel to all nations," the aim of Christian workers since the foundation of the religion, neared fulfillment this afternoon when the Rev. F. B. Meyer, London's famous clergyman, preached the opening sermon of the sixth congress of the World's Sunday School association.

Europe, Asia, Africa and Australia, as well as North and South America and the islands of the sea, were represented in the great throng which filled Convention hall to overflowing.

The formal reception meeting will be held this evening. President Taft will speak for the nation, to be followed by the Hon. John Wanamaker, who will represent the Christian business men of America.

Additional words of welcome will be spoken by a representative of the District of Columbia. Responses will be made by representatives of Europe, Asia, Africa and Australia. The theme of this session will be, "The Influence of the Sunday School Upon the Nations."

As the response from each country foreign to America and Great Britain is made, the delegation from that particular country will occupy the platform, and the flag of the country represented will be prominently displayed.

Newark, N. J., May 19.—An elaborate tombstone with an epitaph in

verse marks the grave in German Valley, N. J., of Dora H., a prize-winning Holstein cow valued at \$12,000, which died suddenly a few days ago.

A veterinary's autopsy revealed that the cow had swallowed in its foal a ten-inch corset stay, which had pierced its heart. Dora's owner composed the epitaph, which is as follows:

This faithful cow we loved so much
Has gone and passed away;
A corset steel cut short her life—
It was not her's to stay.

WHEN YOUR MEALS DISAGREE

It is certainly time to take immediate action if you would ward off a serious sick spell. It is positive proof of a weak stomach and deranged digestion and for which you cannot take a better medicine than Hostetter's Stomach Bitters; but remember this, the longer you put off giving the assistance needed by the digestive system the harder it is going to be to cure you. We know of hundreds of cases, taken in hand at the very beginning, in which a short course of the Bitters proved very efficacious. Therefore, be persuaded to get a bottle today from your druggist or dealer, and thus avoid all possible danger of a sick spell. It is a wonderful tonic and invigorant for overworked, nervous, and run-down persons, and in cases of Poor Appetite, Bloating, Heartburn, Indigestion, Dyspepsia, Costiveness and Malaria it is the best.
